

October Science Cafe

“Less is More” Technology: Is Smaller and Cheaper Always Better?

Friday, October 19, 2007
5:30 - 6:30 pm
Arizona Science Center

600 E. Washington Street
Phoenix, AZ
602-716-2000

Science Cafes are free, informal discussions that bring together members of the community and university scientists, to discuss how science and technology can change the future.

In the typical cafe, a scientist speaks for 5-15 minutes on a topic, with the rest of the time for the public to ask questions and present concerns.

An engineer and a social scientist will talk about how the trend towards smaller and cheaper technology affects research and the general public.

Dr. Deirdre Meldrum

Dean, Ira A. Fulton School of Engineering
Director, Center for EcoGenomics
Biodesign Institute, Arizona State University

Dr. Jamey Wetmore

Assistant Professor,
School of Human Evolution and Social Change;
Center for Nanotechnology in Society
at Arizona State University

Teachers now receive 1 hour Professional Development for each Cafe attended
