

## January Science Cafe

**Friday, January 18, 2008**  
**5:30 - 6:30 pm**  
**Arizona Science Center**

600 E. Washington Street  
Phoenix, AZ  
602-716-2000

Science Cafes are free, informal discussions that bring together members of the community and university scientists, to discuss how science and technology can change the future.

In the typical cafe, a scientist speaks for 5-15 minutes on a topic, with the rest of the time for the public to ask questions and present concerns.

Is nuclear energy a viable, sustainable energy source? An engineer and a political scientist discuss why the United States does not have more nuclear power plants.

**Dr. Keith Holbert**

Associate Professor, Electrical Engineering  
Ira A. Fulton School of Engineering  
Arizona State University

**Dr. Clark Miller**

Associate Professor, Political Science and  
Consortium for Science, Policy, & Outcomes  
Arizona State University

Teachers now receive 1 hour Professional Development for each Cafe attended
