

September Science Cafe

Designing Things: Balancing Beauty, Utility & Sustainability in Products

Friday, September 21, 2007
5:30 - 6:30 pm
Arizona Science Center

600 E. Washington Street
Phoenix, AZ
602-716-2000

Science Cafes are free, informal discussions that bring together members of the community and university scientists, to discuss how science and technology can change the future.

In the typical cafe, a scientist speaks for 5-15 minutes on a topic, with the rest of the time for the public to ask questions and present concerns.

A scientist who has successfully created two start-up companies and a design professor will discuss what it takes to get technologies from the lab to the store.
