

# enLIGHTeNING Lunch

with Hannah Rogers

Wednesday, April 27, 2016

12:00 noon - 1:00 pm

Tempe Campus: Coor 5536

## What is bioart?

Hannah Rogers will discuss her research at SymbioticA in a wet lab for artists and artworks that employ tissue culture to create sculptures, 3-D printing for body augmentation, and images made from DNA. This talk will probe a question about the intersection of contemporary art and biotechnology: What is bioart?

RSVP to [cspo@asu.edu](mailto:cspo@asu.edu) by noon on Tuesday, April 26  
Lunch will be served (must RSVP).

Hannah Star Rogers is the Director of Research and Collaboration for Emerge: Artists and Scientists Redesign the Future. Her publications, curatorial practice, and public engagement focus on the intersection of art and science.
